TESTIMONIAL

Cathy Brewer
Villiera Wines

“ wine.co.za have performed beyond our expectations in terms of service and innovation. We are now onto our second website with wine.co.za (after many years, our look was in need of a facelift). Nothing was too much trouble and each time we needed a change it is done almost instantaneously. Apart from regular updates to our website, wine.co.za help us to put our newsletters together, publish our press releases, broadcast our functions and keep us up to date with what is happening in the industry. They deliver the expected results and then some. ”
